

Pottery

This year in Pottery Mrs Sheryl Schilling taught us again. The upper primary made medieval castles and glaciers; middle primary made pots/ bowls like medieval crowns and garden signs; and the junior primary made leaves and family shields. Here are some of the students thoughts:

Jess: I liked the music and I liked making the family shields.

Angie: I liked making both the garden signs and pot the best.

Shaylee: I liked making the pottery and the different colours.

Patrick: I liked making the pottery and seeing all the different colours.

Riley: I liked making the bowls because I like the colours.

Pottery

In our second pottery class the Upper Primary made icicle pencil holders as part of our Antarctica project, Middle Primary made plant label stakes for their vegetable garden , and the Junior Primary made family shields.

We made Medieval Castles, Crowns and Family Shields because we did a unit of work on medieval times. This was also finished up with a Medieval Feast by Upper Primary on the last day of Term 2.
